Lady Huntingfield Attends **Annual Meeting**

Annual Meeting Lady Huntingfield inspected the North-cotte Creche and Kindergarten on Monday Afternoon, and afterward attended the annual meeting, which was held in the committee-room at the Northcote Town Hall. The mayor of Northcote (Coun-cillor M. C. Jones) presided. In the sixth annual report it was re-corded that 20 women of the committee were still giving £11 each for rent of the creche to the council because they were throughly convinced that the in-

order that 20 women of the committee refer still giving £1.1 each for rent of he creeche to the council, because they refer thoroughly convinced that the in-fuence of the creeche and kindergarten in the children of pre-school age of any ndustrial city was the surget foundation if asivation. During the year 3.021 chil-ren had been taken care of at the creech-decrease of 12 on the figures for the revious year. This was explained by the inprovement in the problem of unem-loyment, as many fathers had succeeded in obtaining permanent employment. The sailt of the children had been wonder-ly beneficial. The kindergarten work ad advanced tremendously in the last here months. It was impossible to teach 11 in the kindergarten-room and unless nore adequate accommodation could be rovided it would be necessary to limit en number of children at the kinder-arten.

Public Affairs Committee Public Affairs Committee In preparation for the National Con-vention, to be held by the Young Women's Christian Association during the Centenary celebrations. a public affairs committee has been formed. A meeting will be held on Priday at 8 pm. The committee is at present working on a questionnaire, which will be sent out to every local secretary of the Y.W.C.A. dealing with the question of employ-ment as it affects women, which, with dis-armament, will be one of the principal topics for discussion at the convention. The questionnaire has been worked out under the following headings: — Causes easonal and technological: the measures at present operating to meet the problem. The relation of houry of work and the question of national employment insur-nance are other matters for considera-tion.
