SPRING CLEANING

About this time every year every house experiences the "Spring Cleaning" phenomenon, and owners are urged to get ready for summer by removing unneeded items of the previous season. It is suggested that all windows be cleaned and that the exterior be made tidy and neat. This is a good time to check the condition of your roof and external walls and to make any necessary repairs. It is also advisable to check the condition of your appliances, especially the hot water system. The kitchen and bathroom are good places to start. Many people find that they can make a lot of money by renovating or improving their homes. It is recommended that you take advantage of this opportunity and get your home ready for the summer season.

HISTORY OF BULGARIA

— (For the Argument by A. A.)

A. A. states that the Bulgarians are a hardy and resourceful people, noted for their hospitality and love of the land. The country is rich in natural resources, and its people have a strong national spirit. The language is one of the most interesting in the world, and the people are a great asset to the country.
