CRITICISM OF USA OVER ISSUE OF PALESTINE

From SUMMER WELLS

The handling of the New York case by the American government and the whole attitude of the United States towards the Arab Jewish question now makes it apparent that the United States has no plan, beyond whatever may be called a moral policy, for the solution of this problem.

We are told that the United States is prepared to do anything but to prepare anything, and that it is only in a general way that it is prepared to help in the establishment of a Jewish state in Palestine.

But it is hardly worth while to give the United States credit for this moral policy when, in the meantime, the United States Government is doing all it can to prevent the establishment of any Jewish state in the country.

It is also stated that the United States Government is doing all it can to prevent the establishment of a Jewish state in the country.

This is a contradiction of itself.

The United States Government is doing all it can to prevent the establishment of a Jewish state in the country.

And the only way to do this is to prevent the establishment of a Jewish state in the country.

Funds Needed To Extend Aid To Blind

The amount of relief and benefit which is to be given to the blind in the United States is limited to the amount of money which is available for the purpose.

But it is hardly necessary to say that the United States Government is doing all it can to prevent the establishment of a Jewish state in the country.

This is a contradiction of itself.

The United States Government is doing all it can to prevent the establishment of a Jewish state in the country.

And the only way to do this is to prevent the establishment of a Jewish state in the country.
