**For the Boys and Girls**

Dear Boys and Girls: 

A STRANGE BIRD

If you are good at feeding your pet birds, you may be interested in feeding a bird that has a head and a body, but no wings. 

This bird may not be very good at flying, but it is good at walking. It is called the Magpie, and it is the bird that has a head and a body, but no wings.

**The Magpie**

Magpies are found in many parts of the world, but they are most common in Australia. They are black and white, with a white face and a black tail. They are skilled at building nests and finding food, and they are also known for their intelligence.

**Tar Brands and Inferior Packs**

**Bright Prospects**

LITHgow COAL MINES.

Diamonds are in the rough, and so is coal. Coal is a valuable resource that is found in many parts of the world. In Lithgow, the coal is mined from underground mines. The coal is then transported to power plants where it is burned to produce electricity.

**Coates' Plymouth Dry Gin**

Coates' Plymouth Dry Gin is a popular brand of gin that is made in Plymouth, England. It is a dry gin, which means that it is not sweetened. The gin is made from a variety of botanicals, including juniper berries, coriander seeds, and angelica root.

**Wool Industry**

Wool is an important resource for the Australian economy. It is grown on farms across the country and is used to make a variety of products, including clothing, rugs, and blankets. The wool is harvested from sheep, which are raised on farms throughout the country.
