FARM TENANCY

SCOTTISH SYSTEM EFFICIENT

Mr. O'Sullivan assures us that the method of dividing the work of the farm between the various members of the household is an extremely efficient system which he has adopted. The system is based on the Scottish model which divides the work into a number of different categories, each handled by a member of the family.

Aboriginal Railway Goods Traffic

Mr. Hargraves seeks co-operative agreement.

Don't hold up trains!

The co-operative agreement proposed for the handling of Aboriginal railway goods traffic is under discussion by the railway authorities. Mr. Hargraves, who represents the Aboriginal community, is seeking to ensure that the goods are handled in a manner that respects and protects the cultural and spiritual values of the Aboriginal people.
