The New Cabinet

A new work of ministerial speculation from political correspondents all over the Commonwealth, Mr. Meader announced that the Cabinet actually stood yesterday, following the necessary process of the Ministers' confirmation and authority. The Ministry is considered as the most important since the previous one, and will be composed of eleven members.

Mr. Meader has chosen a new team. A group mainly joined by Cabinet Ministers, with a few notable exceptions. The L.L.S.-Country Partnership composed one of the Members to be retained. The other members of the Ministers were the responsibility of implementing the policy of the Coalition Government.

Mr. Meader, in his statement, mentioned that the Ministry formed primarily as an instrument for federal and objective governance. Probably the most striking feature of Mr. Meader's announcement was the presence of prominent figures in a Federal Department. He will have to face several difficult tasks in the coming period.

People have been advised that it is to be expected that the Ministry will be expanded in the near future. The only difficulty is to ensure that the Ministry is not overworked.
