TELEGRAPHIC dispatches

By Submarine Cable.

Mr. Charles W. Macfarlane, formerly of New Zealand, has been appointed as颇有
the telegraph. His appointment is due to the interest of the Government in the telegraph service.

He has been engaged in the telegraph service for many years, and is well known for his skill and integrity.

He will take charge of the telegraph station at Hobart, and will be responsible for all telegraphic communications with the islands and the mainland.

The news has been received with great interest, and there is every expectation of a successful and profitable operation.

We congratulate Mr. Macfarlane on his appointment, and hope that he will continue to flourish in his new position.

The Tasmanian Times, Friday, March 4, 1870.

THE TASMANIAN TIMES.

FRIDAY, MARCH 4, 1870.

She was sold to the Government at a price of £1,000, and is now in commission at the Dry Dock, where she is being fitted up for the service of the Government.

The ship is to be used as a surveying vessel, and will be fitted up with all the necessary apparatus for the purpose of surveying and mapping the coasts of the country.

The ship has been fitted up with the latest improvements, and is expected to be ready for service in the course of a few days.

The Government are to be congratulated on the purchase of such an excellent vessel, and we trust that it will be a success in the service of the Government.

The ship has been fitted up with all the necessary apparatus for the purpose of surveying and mapping the coasts of the country.
