Complete Revolution in Egg-marketing System

All "Board" Supplies to be Pooled and Standardised For Sale

Another month and the Egg Marketing Board will have inaugurated a new era in the system of selling, under which all eggs produced within its territory will be controlled, the board retiring from its functions.

Within the board's territory, irrespective of their source, eggs will thus be brought into the dragnet of control to that extent, although not handled by the board.

Economically the change is not without its disadvantages, for the board is to cease, so far as with general interest.

Governor-General's Visit to Granite Town

MORRYA, Friday.—The Governor-General and Lady Bowen visited the town yesterday en route to Yarrawonga, VIC. For many years the town has been known as the "base of New South Wales" and has been the centre of the sphere of influence of the Sydney docks. It now has a population of 2,000, and is noted for its fine scenery and its healthful climate.

Air Clubs

The Australian National Air Club, founded in 1908, has been granted a new lease of life by the Department of Air and Defence, which has decided to continue its activities. The club, which has been dormant for several years, will now be revived and will be known as the Australian National Air Club. The club will be open to all registered pilots and will provide facilities for the training of new pilots.
