Prime Minister Will Confer With Graziers

First-hand Information of Position of Pastoral Industry

The new Federal Ministers have shown a disposition to "set off their own bat" in regard to the interests of the primary industries, with reference to the pastoral industry in particular. Mr. Scullin now proposes to alter the procedure.

At last representatives of the Australian Meat Growers' Association, the Gracemere Federal Council of Agriculture and the Federal Farmers Secority, under the chairmanship of Mr. Scullin, met in Melbourne on January 16 to discuss the question of the marketing of wool.

It has been officially announced that the government will be prepared to negotiate with the pastoralists on the question of the marketing of wool.

The wool growers are agreed that the government is committed to the principle of the marketing of wool, but they are not satisfied with the present arrangements. They are seeking for a better system of marketing, which will be in the interest of the wool growers, and which will also be in the interest of the government.

Mr. Scullin has also been instructed to negotiate with the pastoralists on the question of the marketing of wool, and he is expected to report to the government on the results of his negotiations.

HEAVY MORTALITY FROM ANTHRAX

412 Sheep Succumb

The outbreak of anthrax on a holding at Ravenswood, in the Northern Rivers district, has resulted in heavy mortality among the sheep. The death toll is now over 400.

The disease has been caused by a strain of bacillus anthracis, which has been introduced into the area from overseas. The government is now taking steps to prevent the spread of the disease to other areas.

COOKABARRA—With its 1,169 occupants, the town is one of the most densely populated in the state, and it is expected that the population will increase by 1,000 in the next five years.

The town is situated on the banks of the Clolumba River, and it is served by a railway line to Maryborough.
