

# Trove Strategic Advisory Committee

## Key Messages

15 March 2024

### Update on current projects

#### National Resource Sharing

Members heard that the Library continues to work on the formal procurement process and is keen to share an outcome with the Partner community when it is concluded.

#### Trove Metadata Manager (TMM) project

The Library explained how the current communications with affected Partners about migrating their harvest streams to OAI-PMH daily update was an integral part of this project that will improve the quality of data in the ANBD. The TMM working group is now established to provide expertise to the Library on aspects of this project that will affect Partners.

### Trove Community Services

Members met Dr Jenny Ostini, the Director of the new Section at the Library. Responsibilities will include working with the communities who engage with Trove, including the formal research community. The new Section also includes the team who copy Library collections for the public.

### Future meetings

The current Chair of the Committee, Ms Laurie Atkinson has now stepped down from the role but will continue to be a member of the Committee. Members were invited to nominate for the role.

There is a face to face meeting scheduled for April, with dates to be confirmed for a Zoom meeting in July, and another face to face in October.
