

Trove Strategic Advisory Committee

Key messages

20 November 2020

Virtual meetings continuing

The Committee continues to meet virtually, with face to face meetings to commence when possible.

Extending the membership base

The Chair led the Committee through a summary of organisations supplied by members to inform the Library's desire to identify and reach new potential Partners.

Committee members were invited to disseminate a survey targeting collecting organisations and community groups that are not yet contributing content to Trove. The aim is to hear from as broad a base as possible so all existing Trove Partners are encouraged to [share the survey link](#) with relevant organisations. Early next year, the Library plans to conduct focus groups to learn more about how Trove can extend its reach to others in the GLAM community.

Understanding the current state

A focus for this meeting was to inform members about the Trove infrastructure ecosystem, and the current usage-based pricing model.

Members noted the usefulness of having some types of usage information easily accessible, such as popular current searches (for example, 'Spanish Flu' was a popular search term during the height of the COVID-19 pandemic).

Forward plan for future meetings

The Committee discussed a timeline and topics for future themed meetings.
