Publisher's site A previous ACIAR project which investigated the shark and ray resources of PNG (FIS/2012/102) generated a large number of scientific outputs ranging from biodiversity lists, to ecological studies and demographic models, to socio-economic analyses and a policy brief. However, only limited outreach to the broader general audience and the communities was achieved in that project. The current project focused on generating outreach and communication material to convey the scientific results of the previous project to a more general audience and to support the PhD candidature of a key PNG team member https://webarchive.nla.gov.au/awa/20191108042248/https://www.aciarc.gov.au/sites/default/files/project-page-docs/final_report_fis-2018-150.pdf

Political correctness. Gender differentiation. Black lives matter. Riots. Democracy under
fire. Loss of civil rights. Social media out of control. Metaphorically lobotomizing our
children. Socialism. Failing education systems. Flourishing crime. The human plague. The

sixth mass extinction of bio-diverse life. A serving U.S. President who trashed the Constitution by encouraging people to storm the Capitol Building in Washington D.C., resulting in six deaths. These are symptoms of a world in turmoil in which anarchy is fast becoming the order of the day. WTF Is Happening To Us? is not the ramblings of a conspiracy theorist. It is a thoroughly researched overview of how the very foundations of democracy, freedom of thought and speech, which generations of people have worked, fought and died to establish, is now being torn asunder. The author, Dr. Robert Harris, takes no prisoners in this hard-hitting, no holds barred appraisal of the facts. He clearly points out the current and projected downside these short-sighted and irrational activities are having on the stability of our world and will continue to do so unless we take decisive action. His motivation is to alert those who care, to encourage them to step up to the plate and oppose the covert destruction of all we hold dear by exposing the depth of deception these left-wing new-age socialists are using to rob us of our civil rights and liberties. / Dr Robert Harris.1 volume.
