The writings were created from meditations on random days during the lock downs June 2020 to 2022. I was strongly advised to start them by my medium and meditation teacher. The journal entries tap in on my personal wisdom and some universal mysteries to be found in this most unprecedented time in human history. The writings have encouraged me to believe that one day there will be a new millennium book and an honest archives for an awakened humanity all over this planet. When that day comes we will find out who we really are and have always been as a human species. By then we will have matured beyond what has been threatening to take away our humanity forever. / JayneeAM.1 volume.
